

/home/jonwebb/Code
_Dev/C++/csalt++/csalt
++/include/allocator.hpp

```
graph BT; A["/home/jonwebb/Code  
_Dev/C++/csalt++/csalt  
++/allocator.cpp"] --> B["/home/jonwebb/Code  
_Dev/C++/csalt++/csalt  
++/include/allocator.hpp"]; C["/home/jonwebb/Code  
_Dev/C++/csalt++/csalt  
++/test/test_allocator.cpp"] --> B;
```

The diagram illustrates a file dependency structure. At the top is a gray box representing a header file: /home/jonwebb/Code/_Dev/C++/csalt++/csalt++/include/allocator.hpp. Below it are two white boxes representing source files. The left box is /home/jonwebb/Code/_Dev/C++/csalt++/csalt++/allocator.cpp, and the right box is /home/jonwebb/Code/_Dev/C++/csalt++/csalt++/test/test_allocator.cpp. Blue arrows point from each source file box up to the header file box, indicating that both source files include the header.
