

cslt::detail::ControlBlock

```
graph BT; A["cslt::detail::ControlBlock Ptr< T, Deleter >"] --> B["cslt::detail::ControlBlock"]
```

The diagram illustrates an inheritance relationship. A white box at the bottom represents a smart pointer class, `cslt::detail::ControlBlock Ptr< T, Deleter >`. A blue arrow points from this box to a gray box at the top, which represents the `cslt::detail::ControlBlock` class. This indicates that the smart pointer class inherits from the `ControlBlock` class.

cslt::detail::ControlBlock
Ptr< T, Deleter >
